

European Entrepreneurship
Education NETwork

Dedicated to moving entrepreneurship education forward in Europe

The EE-HUB brings together experts who have connections with many organisations, networks and governments. The EE-HUB extends and deepens policy cooperation on entrepreneurship education.

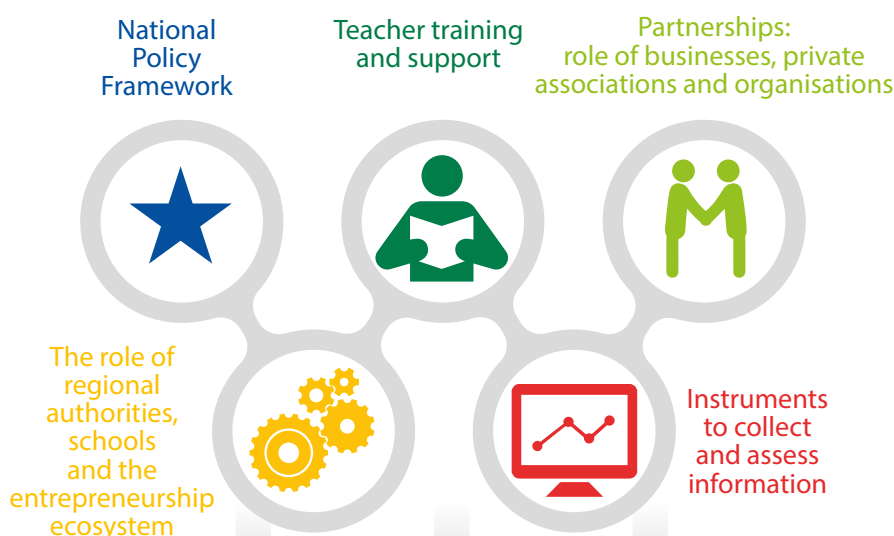

“Entrepreneurship education must be promoted as a core educational element. If every young pupil has at least one practical entrepreneurial experience before leaving school, future generations will be better decision makers, problem solvers and well prepared to enter the job market. Thus, we need to maximize entrepreneurship education at all levels to make sure that no pupil is excluded from entrepreneurial learning.”

Tibor Navracsics,
European Commissioner
for Education, Culture,
Youth and Sport
